

## LoLo's Creative Expressions

### Mobile Art Studio

Hello, my name is LoLo Perry. I have a mobile art studio, where I provide art project/painting activities to business and other entities for their customers. These can be paint and sip or craft and sip, date night activities, singles mingles, family night, birthday or any celebration that is needed. These are a fun way for your customers to interact.

I will bring everything for the activity, set up and break down. All you do is provide the space and we collaborate on promoting the event. This should bring in more customers to your establishment. Which should make both of our businesses succeed.

Different projects I can provide are; painting on canvas, painting on door hangers, making porch signs, painting on canvas bags, painting on blue jeans or shirts, painting and hat burning, making ornaments, garden art, windchimes and other activities. I can customize any activity to meet your needs. I usually need about 3 hours total, (30 minute set-up, 2 hrs to guide people thru the activity and 30 minutes clean up).

Let me know if you think you would be interested in providing these kind of activities in your establishment.

Thank you for your time..

LoLo
